V: 1.1 - Date 26.11.2025

Mission Statement

LRWA, the Liquid Roofing and Waterproofing Association consists of the leading manufacturers of liquid applied waterproofing, approved contractors and related materials suppliers.

Originally founded in 1979, LRWA aims to raise awareness of the technical and financial benefits of specifying liquid-applied roofing & waterproofing systems and to establish product and installation standards to ensure that optimum performance is achieved.

LRWA members are devoted to best industry practice. With the aim of supplying and applying systems to a client's full satisfaction, advice can be obtained either centrally or from individual member firms. Our aim is to educate and inform specifiers, contractors and the industry as to the properties, correct applications, installation methods and aftercare of liquid waterproofing systems.
